

Results of laboratory control
the quality of atmospheric air in residential areas closest to the SPZ
PJSC "ArcelorMittal Kryviy Rih" for the september of 2021

Sl. No.	Sampling date	Start time	Sampling place	Meteorological conditions			Weather conditions	Content, mg/m ³
				Atmosphere pressure, mm. of mercury	Air temperature, °C	Wind direction		Dust
								Maximum admissible concentration max. one-time—
								0.5 mg/m ³
1	2	3	4	5	6	7	8	9
1	03.09.2021	11-10	v. Rahmanove, area of school yard of School No. 64	754	16,0	N-W	cloudy	<0,26
2	07.09.2021	12-00	v. Iliche, Kooperativnaya str.	765	16,0	N-E	clear	<0,26
3	07.09.2021	12-30	v. Ilyich (parking near the store)	765	17,0	N-E	clear	<0,26
4	21.09.2021	12-00	v. Rudnichne, Gertsena str.	752	14,0	N-W	cloudy	<0,26

Remark 1: Control of atmospheric air quality is done by Environment Protection Department of PJSC ArcelorMittal Kryviy Rih, license No. 08-0058/2018 dd 20.12.2018 about correspondence of measurement system to the requirements of DSTU ISO 10012:2005

Remark 2: The limits of permissible specified tolerance in the range of measurements - +/-25%.
