ENVIRONMENTAL POLICY

Approved by the Order
dd. 22.06.23 No. 589

Environmental protection and provision of environmental safety of the production are an integral part of sustainable development of the business of PJSC ArcelorMittal Kryvyi Rih.

Environmental Policy of the company has been harmonized with Corporate Environmental Policy and it reflects principles and commitments of the company for successful merge of business and environmental interests.

Steel is the material of choice for environmental protection; not only is it environmentally friendly but it also outperforms other materials because it is readily recycled.

Environmental excellence, incorporated into all processing activities, is to be promoted by the following principles:

- 1) Compliance with all relevant environmental laws and regulations, and other company commitments.
- 2) Continuous improvement of environmental management system to reduce the significance of environmental aspects.
- 3) Development and implementation of low impact, environmental production methods taking benefit of locally available raw materials.
- 4) Efficient use of natural resources, raw materials, energy, land, and water.
- 5) Company modernization and implementation of energy and resource saving processes aiming to reduce GHG emissions.
- 6) Phased development of environmental monitoring with information support to control environmental performance improvement.
- 7) Conducting environmental impact assessments for planned activities in accordance with national legislative provisions.
- 8) Preservation of natural areas subject to special protection in case of production impact or commitments in accordance with national legislation requirements.
- 9) Company environmental activities promotion and environment-oriented social projects implementation.
- 10) Open communication and dialogue with all stakeholders affected by the operations of PJSC ArcelorMittal Kryvyi Rih.
- 11) Providing environmental education and general involvement of company employees in environmental activities aiming to enhance responsibility of the employees with respect to environmental performance.
- 12) Supplier and contractor awareness of Environmental Policy and environmental management system requirements of PJSC ArcelorMittal Kryvyi Rih.
