Note 1: Atmospheric air quality monitoring was carried out by air quality control was carried out by automated monitoring stations and by Environment Protection Department of PJSC ArcelorMittal Kryvyi Rih, certificate No. 08-0081/2021 dated 17.12.2021 regarding measurement system conformity to the requirements of DSTU ISO 10012:2005

Note 3: 24.11.2023, the gas analyzer for determining the concentration of sulfur dioxide of APS No. 3 was dismantled for unscheduled maintenance.

Note 4: during the period of dismantling of measuring equipment, control of atmospheric air quality in the post area is carried out by company specialists twice a day on weekdays using portable devices. Due to the fact that this period of NMU fell on weekends, such measurements were not carried out.

Note 2: bsm - below the sensitivity of the methods.
