Note 1: Atmospheric air quality monitoring was carried out by air quality control was carried out by automated monitoring stations and by Environment Protection Department of PJSC ArcelorMittal Kryvyi Rih , certificate No. 08-0081/2021 dated 17.12.2021 regarding measurement system conformity to the requirements of DSTU ISO 10012:2005

Note 2: because of data not available from APS №№1-3 in this period UWC, due to a technical failure in the work of the Internet provider was well as due to a for unscheduled maintenance the gas analyzer for determining the concentration of sulfur dioxide, control of atmospheric air quality in the post area is carried out by company specialists twice a day on weekdays using portable devices.

Note 3: bsm - below the sensitivity of the methods.
