Note 1: Atmospheric air quality monitoring was carried out by air quality control was carried out by automated monitoring stations and by Environment Protection Department of PJSC ArcelorMittal Kryvyi Rih, certificate No. 08-0081/2021 dated 17.12.2021 regarding measurement system conformity to the requirements of DSTU ISO 10012:2005

Note 2: because of data not available from APS №1-3 in this period UWC, due to a technical failure in the work of the Internet provider was well as due to a for unscheduled maintenance the gas analyzer for determining the concentration of sulfur dioxide, control of atmospheric air quality in the post area is carried out by company specialists twice a day on weekdays using portable devices.

Note 3: bsm - below the sensitivity of the methods.
